

## SUMMARY

Detail-oriented **Full Stack Developer** with expertise in the **MERN stack** (MongoDB, Express.js, React.js, Node.js). Proven track record of developing dynamic web applications and implementing scalable software solutions. Skilled in both **front-end** and **back-end** technologies, including API development, user authentication, and database management.

---

## EDUCATION

### SRTM University, Nanded, Maharashtra

- Master Of Computer Application | CGPA : **[Held]** | June 2022 - July 2024

### MIT College OF CS & IT, Basmath, Maharashtra

- Bachelor Of Computer Application | CGPA : **9.22** | June 2019 - May 2022
- 

## TECHNICAL SKILLS

- **Databases:** MongoDB, PostgreSQL
  - **Languages:** JavaScript, TypeScript
  - **Frameworks:** Node.js, React.js, Express.js
  - **Styling:** CSS, Tailwind CSS, Bootstrap, HTML
  - **Tools:** Figma, Postman, Swagger
  - **Version Control:** Git, GitHub
- 

## PROJECTS

### JobScan Web Application | [Live Link](#) | [GitHub Link](#) | June 2024 - July 2024

- **Tech Stack** - MongoDB, Express.js, React.js, Node.js (MERN)
- Developed a comprehensive job platform to connect job seekers with companies. Features include account creation, job browsing, search functionality, and job listing management. Enhanced user experience by streamlining job search processes and integrating user authentication.

### ClothingShop Web Application | [Live Link](#) | [GitHub Link](#) | April 2024 - May 2024

- **Tech Stack** - HTML, CSS, Javascript
- Built a responsive e-commerce site for clothing using HTML, CSS, and JavaScript. Implemented features for dynamic content updates, user interactions, and product management. Ensured high availability and performed regular maintenance.

### Personal Portfolio Web Application | [Live Link](#) | [GitHub Link](#) | November 2023 - December 2023

- **Tech Stack** - HTML5, CSS3, Javascript
- As a developer, I've meticulously crafted my personal portfolio using HTML5, CSS3, and JavaScript. Explore my skills, projects, and passion for creating innovative digital solutions.

### Petroleum Management System | [Live Link](#) | [GitHub Link](#) | January 2024 - February 2024

- **Tech Stack** - TypeScript, Reactjs, PostgreSQL
- Engineered a robust Petroleum Management System with TypeScript, Fastify, and TypeORM to manage and track petroleum products and services; increased data accuracy by 50% and customer satisfaction by 20%.

### iGroBasket Web Application | [Live Link](#) | [GitHub Link](#) | March 2024 - April 2024

- **Tech Stack** - HTML, CSS, Javascript
  - Developed a dynamic web application, iGroBasket, to provide real-time updates on grocery products and daily needs items. It allowing users to easily browse and access essential products. The project focuses on up-to-date product availability and seamless navigation.
- 

## CERTIFICATES

### Full Stack Crash Course (Udemy) | [CERTIFICATE](#)

August 2024

- Comprehensive Full Stack Crash Course covering front-end, back-end, and database development with hands-on project experience.

### Backend With Node Js (Udemy) | [CERTIFICATE](#)

August 2024

- Developed and implemented scalable backend REST APIs using Node.js, enhancing application performance and reliability.
